WHY CHOOSE LACAVA?

LACAVA was established in response to the market’s growing demand for beautiful and inspiring bathroom products. While design and fashion have been embraced in clothing, automotive, and interior design of major living spaces for a long time now, bathrooms have been lagging. Despite the fact that bathrooms are very personal and frequently used areas - or maybe for that very reason - it appears as if they do not need or cannot be an attractive environment. Having the Italian discerning taste and an eye for beauty, the founder of LACAVA decided to enrich this area with a selection of inspiring bathroom fixtures and furnishings.

Our company provides a comprehensive bathroom experience from vanities, lavatories, toilets and tubs, to faucetry, and accessories. All products are carefully styled for luxurious and quality appearance deeply rooted in the Italian design legacy and philosophy that surrounding beauty is inspirational for human spirit and enhances the quality of life and overall well-being.

LAVATORIES AND SINKS

Our selection of lavatories and sinks, made of porcelain, solid surface, stainless steel, and natural stone, offers a wide range of applications from stand-alone pedestals, wall-mount, on-counter vessels, to vanity top, and undercounter sinks. Regardless of the space requirements, whether it’s needed for a mansion with dozens of bathrooms or is sought after by a “tiny house nation,” we have shapes and sizes to choose from to fit any facility.

The materials used for LACAVA lavatories, each with its own specific characteristics, ensure long-lasting quality and performance. Porcelain (also widely known as fine china) originated its name from old Italian porcellana, as it resembles the translucent surface of a shell, although the process itself was first introduced in China. We use very fine clay to produce our Porcelain lavatories. The many benefits of fine clay include low porosity and elasticity, high brilliance of glaze, as well as high resistance of the material and finish to chemicals and thermal shock. However, fine clay is subject to relatively high level of shrinkage 12-15% during kiln firing process at extremely high temperatures reaching over 2200°F / 1200°C. This process results in toughness, strength, and translucent surface similar in touch to glass, but it also produces unavoidable low levels of deviation from the originally intended perfect shape. Each lavatory is therefore slightly unique and closely inspected for proper fit with the accompanying vanity.

Our solid surface is a homogenous mixture of natural crushed stone and resin. The material is an inert and non-toxic material that is created from a clean production process where a chemical reaction takes place inside the cast molding, which is more environmentally friendly. In addition, Solid Surface is extremely durable and versatile when compared to other materials that are commonly used in bathrooms - it is heat, chemical, stain, scratch and impact resistant. The matte material is non-porous and consistent in color and composition the whole way through, meaning any scratches or stains that might occur can be buffed out and then re-polished back to its original finish. In contrast, Porcelain products cannot typically be repaired once damaged, although Porcelain does usually have a brighter and shinier finish. Gloss finish on Solid Surface is attained with additional coating applied to the surface. Solid Surface is renewable and highly resistant to bacterial and fungal growth.

BATHTUBS

To complement our lavatories and sinks, we offer a selection of free-standing soaking bathtubs made of solid surface or fiberglass reinforced acrylic, for both materials are highly functional in a bathroom environment. Our tubs range from 53” to 76” and have very deep bathing room for comfort. The bathtubs are supplied with accompanying drains.

TOILETS

Responsible design takes into consideration the reality of limited renewable resources, in response to which most LACAVA toilets are equipped with dual flush systems 1.6 gpf and 0.8 gpf. Compared to the standard 3.5 or 5.0 gpf toilets, this alone translates into huge water usage savings; over 70% less water is used with dual flush toilets - it not only serves the environment well but also constitutes sizable water bill savings in the long run. We have toilets for wall-mount or free-standing installation that in general match the appearance and style of our sinks and bathtubs for easy shopping experience.
FURNITURE

The protection of our environment is also reflected in the furniture we manufacture. LACAVA supports green manufacturing practices using woods selectively harvested from sustainable forests supplied by vendors certified to abide by environmental regulations and initiatives. Our vanities are of Italian design, German engineering, 100% made in the USA.

We are proud to offer standard and custom bathroom furniture. Every LACAVA furniture piece is completely customizable, with altered dimensions to fit your space, added doors and drawers to maximize storage capacity, customized finishes and materials, and selection of pull hardware for doors and drawers.

Our 10-step finishing process will ensure a luxurious look and exceptional water-resistance properties. Every LACAVA furniture piece is available in 20+ finishes with the choice of textured option on painted flat panels. Our natural wood furniture comes standard with matching wood grain across vanity front elevation.

We pride ourselves in the highest quality craftsmanship and hardware. All LACAVA furniture features:

- hand-made construction by master craftsmen,
- solid wood and/or wood veneer over ply,
- matching wood grain across vanity front elevation,
- no laminates or fiberboards,
- dovetail drawer frames on all units,
- soft-closing hinges and drawer glides by the German manufacturer Blum ensure long-lasting and perfect functionality of the doors and drawers,
- custom and European pulls on drawers and doors,
- sturdy wall cleats and brackets for mounting.

FAUCETS AND ACCESSORIES

LACAVA faucets, shower heads, and accessories are made of brass plated in polished chrome and chosen lines plated in additional finishes, like brushed and polished nickel, as well as matte black, and brushed gold. Selected products and lines are made of stainless steel or available in other popular finishes, like black, and brushed brass. Faucets and valves are outfitted with the most advanced German ceramic mixing and thermostatic cartridges. Water conservation is satisfied with low-flow aerators. To prove the highest quality standards, LACAVA provides a Limited Lifetime Warranty on its faucetry. This warrants any faucet, installed in a residential application, to be free of defects in material and workmanship for as long as the original consumer owns his or her home. Any product installed in a commercial application is covered under warranty for one year.

Selected faucets and fittings:

- can be used in ADA compliant environment,
- meet requirements for Cal-Green,
- are tested and meet specified standards per the Uniform Plumbing Code,
- are lead-free in accordance with the stringent U.S. regulations.

Wall-mount, ceiling-mount and hand-held shower heads feature “easy-clean” rubber nozzles and are outfitted with low-flow regulators.

LACAVA also offers touch-free electronic faucets and soap dispensers to promote hygienic safety in private and commercial places.

LACAVA strives to ensure long-lasting beauty and performance of our bathroom fixtures for complete customer satisfaction.

ELECTRONIC FAUCETS AND SOAP DISPENSERS

- integrated infrared sensor
- auto stop safety feature
- A/C power supply and battery pack included, can be installed directly into electrical system
- matching soap dispenser available for most faucets
- water pressure: 15-90 PSI
- temp. range: 34-120 ºF (1-50 ºC)
- commercial grade
- variable sensor distance
- 10 second cycles at 1.0 GPM, 0.2 gallon per cycle
- flow can be changed to meet LEED or local building codes through different aerators
- can be installed to meet ADA standards
- meets all WaterSense criteria
A | EX11 in brushed gold  
B | EX11 in titanium  
C | EX04A faucet and EX02A soap dispenser in polished chrome  
D | EX03A faucet and EX01A soap dispenser in polished chrome
Electronic faucets can run cold or premixed water. Obtaining premixed warm water requires separate mixing valves. Options are available as below:

**MECHANICAL MIXING VALVE** — $120

**THERMOSTATIC MIXING VALVE** — $250
A | EX21 in brushed nickel
B | EX24 in polished chrome
C | EX16 in polished chrome
D | EX18 in polished chrome

- 37 weathered oak
- 16T1 black with texture

* Differences in color, grain, appearance and texture are inherent in all natural woodwork, and should be expected. Colors printed are not an accurate representation of the actual finishes and should not be used as color guide.
** Natural stone is subject to large inconsistencies and variations. Other stone options quoted upon request.

*** Athens has very prominent crystallized cross veins that look like cracks. If such feature is not desired, other stone finishes are strongly recommended. Cross veins will not be accepted as a valid reason for returns or exchanges.
Thank you for considering LACAVA in your bathroom project; we are confident you will be able to enjoy our products for many years to come!

In any case, LACAVA does not cover installation costs. The merchandise is at the purchaser’s risk and cost. Special order and custom-made items are not returnable. Products must be inspected prior to installation and installation of the product means its acceptance. Product, once installed, cannot be returned. Damages occurring in installation are not considered defects and are not subject to return or refund.

If the product is not satisfactory for any reason, it can be returned to LACAVA up to 30 (thirty) days from the shipping date after obtaining a Return Goods Authorization (RGA). A restocking fee of 25% may apply. To obtain an RGA number, please fax or email us your request with a description of the reason for return. The merchandise must be in salable condition, and the shipping document is signed, it becomes the property of the purchaser. We constantly improve the packaging as new technologies become available, but damages in transit may still occur. Therefore, we recommend that all packages be inspected by the purchaser in the carrier’s presence upon delivery. In case of damages, either visible or concealed, the purchaser is responsible for filing any damage claim against the carrier. In such regretful circumstance, we suggest utter diligence to have the carrier’s agent explain the steps to submit a valid claim against the carrier, as each carrier has different claim policies. Please document everything in writing, preferably on the shipping documents and have also the carrier’s agent sign along. If you wish that LACAVA assists you in the claim process, please fax or email us copies of the shipping and claim documents at your earliest convenience. In case of missing items, which could occur due to our mistake or a theft during transit, please follow same procedures as for shipping damages above, with the only difference that the claim concerns something completely missing rather than damaged. Please take notes of any visible tampering with the packaging in the presence of the carrier’s agent before accepting the delivery with your signature. In case of missing items, you must also inform LACAVA and send us all related documents within 24 hours from the delivery date. We will open an internal investigation and check the inventory count to determine whether it was our error. If we verify it was our mistake, we will promptly ship the missing item(s) to the purchaser by standard ground at our cost.

In accordance with the laws of limitation and exclusion state by state, and therefore provided the duly exceptions, LACAVA will not be held liable, in any event, for any special, indirect, incidental or consequential damages or losses (including but not limited to damages for loss of business, loss of profits, etc.) for breach of contract, tort (including negligence), product liability or otherwise, even if it has been advised of the possibility of such damages. LACAVA’s liability on any claim (including negligence) will not in any case exceed the contract price paid. LACAVA provides a Limited Lifetime Warranty on its faucetry. This warrants any faucet, installed in a residential application, to be free of defects in material and workmanship for as long as the original consumer owns his or her home. Any product installed in a commercial application is covered under warranty for one year. LACAVA warrants all other products to be free from any defects in materials or workmanship, during normal residential or commercial use including all hinges, drawer slides, finishes, and general workmanship of the item for a period of one year. LACAVA warranties do not cover normal wear and tear, damages due to negligence, faulty installation, improper alterations and repairs, improper cleaning and care, or damages due to uses of the product other than its intended and normal use. If a defect is found under normal use, while under warranty, LACAVA will repair or replace the product (whichever cost is smaller to LACAVA) at its own expense (excluding shipping and installation charges). Under no circumstances is LACAVA responsible for installation/service fees or any dollar amount beyond the cost of the item. In addition, all LACAVA products are to be installed by experienced professionals properly licensed and bonded; otherwise, any LACAVA warranty and liability is to be considered waived. All warranties are non-transferable and proof of purchase is required for any warranty claim.

LACAVA does not include shipping and handling charges. Freight Program*
$2500 net qualifies for FREE freight in the contiguous U.S.!
