WHY CHOOSE LACAVA?

Our mission:
CREATING BEAUTIFUL BATHROOMS

LACAVA was established in response to the market's demand for beautiful and inspiring bathroom products. Our company provides a comprehensive bathroom experience from vanities, sinks, toilets and tubs, to faucetry, and accessories. All products are carefully styled for luxurious and quality appearance deeply rooted in the Italian design legacy and philosophy that surrounding beauty is inspirational for human spirit and enhances the quality of life and overall well-being.

LAVATORIES AND SINKS

Our selection of lavatories and sinks, made of porcelain, fire clay, solid surface, stainless steel, natural stone, and concrete offers a wide range of applications from stand-alone pedestals, wall-mount, on-counter vessels, to vanity top, and undercounter sinks. Regardless of the space requirements, whether it's needed for a mansion with dozens of bathrooms or is sought after by a "tiny house nation," we have shapes and sizes to choose from to fit any facility.

The materials used for LACAVA sinks, each with its own specific characteristics, ensure long-lasting quality and performance. **Porcelain** (also widely known as fine china) originated its name from old Italian *porcellana*, as it resembles the translucent surface of a shell, although the process itself was first introduced in China. We use very fine clay to produce our Porcelain lavatories. The many benefits of fine clay include low porosity and elasticity, high brilliance of glaze, as well as high resistance of the material and finish to chemicals and thermal shock. However, fine clay is subject to relatively high level of shrinkage 12-15% during kiln firing process at extremely high temperatures reaching over 2200°F / 1200°C. This process results in toughness, strength, and translucent surface similar in touch to glass, but it also produces unavoidable low levels of deviation from the originally intended perfect shape. Each sink is therefore slightly unique and closely inspected for proper fit with the accompanying vanity.

Fire clay, on the other hand, is obtained by adding to the clay mix refractory material (non reactive to high temperature) that reduces the shrinkage from a 12-15% of the porcelain to a 3-5%, allowing to develop larger pieces and still be within tolerance in shape and size. To be called "fire clay", the material must withstand a minimum temperature of 2759°F / 1515°C.

Our **solid surface** is a homogenous mixture of natural crushed stone and resin. The material is an inert and non-toxic material that is created from a clean production process where a chemical reaction takes place inside the cast molding, which is more environmentally friendly. In addition, Solid Surface is extremely durable and versatile when compared to other materials that are commonly used in bathrooms - it is heat, chemical, stain, scratch and impact resistant. The matte material is non-porous and consistent in color and composition the whole way through, meaning any scratches or stains that might occur can be buffed out and then re-polished back to its original finish. In contrast, Porcelain products cannot typically be repaired once damaged, although Porcelain does usually have a brighter and shinier finish. Gloss finish on Solid Surface is attained with additional coating applied to the surface. Solid Surface is renewable and highly resistant to bacterial and fungal growth.

BATHTUBS

To complement our lavatories and sinks, we offer a selection of free-standing soaking bathtubs made of solid surface or fiberglass reinforced acrylic, for both materials are highly functional in a bathroom environment. Our tubs range from 53" to 76" and have very deep bathing room for comfort. The bathtubs are supplied with accompanying drains.

TOILETS

Responsible design takes into consideration the reality of limited renewable resources, in response to which most LACAVA toilets are equipped with dual flush systems 1.6 gpf and 0.8 gpf. Compared to the standard 3.5 or 5.0 gpf toilets, this alone translates into huge water usage savings; over 70% less water is used with dual flush toilets - it not only serves the environment well but also constitutes sizable water bill savings in the long run. We have toilets for wall-mount or free-standing installation that in general match the appearance and style of our sinks and bathtubs for convenient shopping experience. Our toilets feature ULTRAGLOSS finish and glazed internal trapways for easy-cleaning, stain and odor resistance, as well as soft-closing easy-clean seats.

FURNITURE

The protection of our environment is also reflected in the furniture we manufacture. LACAVA supports green manufacturing practices using woods selectively harvested from sustainable forests supplied by vendors certified to abide by environmental regulations and initiatives. Our vanities are of Italian design, German engineering, 100% made in the USA.

We are proud to offer standard and custom bathroom furniture. Every LACAVA furniture piece is completely customizable, with altered dimensions to fit your space, added doors and drawers to maximize storage capacity, customized finishes and materials, and selection of pull hardware for doors and drawers. Our 10-step finishing process will ensure a luxurious look and exceptional water-resistance properties. Every LACAVA furniture piece is available in 20+ finishes with the choice of textured option on painted flat panels.

Our natural wood furniture comes standard with matching wood grain across vanity front elevation.

We pride ourselves in the highest quality craftsmanship and hardware. All LACAVA furniture features:

- hand-made construction by master craftsmen,
- solid wood and/or wood veneer over ply,
- matching wood grain across vanity front elevation,
- no laminates or fiberboards,
- dovetail drawer frames on all units,
- soft-closing hinges and drawer glides by the German manufacturer Blum ensure long-lasting and perfect functionality of the doors and drawers,
- custom and European pulls on drawers and doors,
- sturdy wall cleats and brackets for mounting.

COUNTERTOP MATERIALS

Solid Surface Stone is a man-made consistent throughout material with the following benefits: care-free maintenance, high scratch, heat, stain, and impact resistance, non-porous and resistant to chemicals surface. Care-free maintenance*, **.

Quartz is also a manufactured consistent throughout material that is similar in wear to Solid Surface Stone, but can resemble more natural stone in appearance. It features care-free maintenance, scratch, heat, stain, and impact resistant non-porous surface. It is resistant to most chemicals but should be cleaned with cleaning products between pH 5-8. Care-free maintenance*.

Finally, **Natural Stone** is the most unique and fragile material. Its natural origin makes each piece different and tends to be more fragile than the manufactured materials. It requires regular sealing and cleaning with mild soap to prevent the porous surface from staining. It is, however, heat and scratch resistant. Natural stone is subject to large inconsistencies and variations. Other stone options are quoted upon request.

*Care-free maintenance indicates the material can easily be cleaned and does not require care other than regular cleaning. Scratch resistance refers to normal use. Sharp and pointy objects, like blades, can scratch and damage most surfaces including the above materials. Heat resistance indicates the surface will not melt or obtain marks from high temperature expected in normal every day use. Abrupt temperature changes or exposure to extreme and prolonged temperatures that are not expected in daily use might cause marks, damages, or cracks. Impact resistance refers to the surface being able to withstand the force of small every day objects falling on it, e.g. a cup, soap dish, etc. Tools, large and heavy objects or other unwarranted impacts that are not a part of daily use can cause damage and cracks.

**Please follow the sealer's manufacturer instructions.

FAUCETS AND ACCESSORIES

LACAVA faucets, shower heads, and accessories are made of brass plated or PVD coated in polished chrome and chosen lines plated in additional finishes, namely brushed and polished nickel, as well as matte black, and brushed gold. Selected products and lines are made of stainless steel or available in other popular finishes, like black, and brushed brass. Faucets and valves are outfitted with the most advanced German ceramic mixing and thermostatic cartridges. Water conservation is satisfied with low-flow aerators. To prove the highest quality standards, LACAVA provides a Limited Lifetime Warranty on its faucetry. This warrants any faucet, installed in a residential application, to be free of defects in material and workmanship for as long as the original consumer owns his or her home. Any product installed in a commercial application is covered under warranty for one year.

Selected faucets and fittings:

- can be used in ADA compliant environment,
- meet requirements for Cal-Green,
- are tested and meet or exceed stringent American standards on mechanical performance, health and consumption efficiency,
- are lead-free in accordance with the strict U.S. regulations.

Wall-mount, ceiling-mount and hand-held shower heads feature "easy-clean" rubber nozzles and are outfitted with low-flow regulators.

LACAVA also offers touch-free electronic faucets and soap dispensers to promote hygienic safety in private and commercial places.

We, at LACAVA, strive to ensure long-lasting beauty and performance of our bathroom fixtures for complete customer satisfaction.

EX23+EX22 POLISHED NICKEL

ZOOM

ELECTRONIC FAUCETS & SOAP DISPENSERS

- integrated infrared sensor
- auto stop safety feature
- A/C-D/C power supply and battery pack included
- matching soap dispenser available for most faucets
- water pressure: 15-90 PSI
- temp. range: 34-120° F (1-50° C)
- commercial grade
- variable sensor distance
- 10 second cycles at 1.0 GPM, 0.2 gallon per cycle
- flow can be changed to meet LEED or local building codes through different aerators
- can be installed to meet ADA standards
- meets all WaterSense criteria

FAUCETS

VALVES & SHOWER HEADS

TYPES

deck, wall-mount, floor-mount, single-hole, two-hole, 3 holes in 8" spread

MATERIAL

brass or stainless steel

FINISHES

polished chrome, polished nickel, brushed nickel, brushed gold, matte black

FEATURES

HIGH QUALITY SHOWER HEADS STANDARDS

ceramic cartridges, low-flow aerators, lead-free
easy-clean rubber nozzles, eco-friendly water saving
most can be installed to meet ADA compliance,
meet or exceed applicable national codes and standards,
meet Cal-Green requirements

1424X in brushed nickel

A modern bathroom sink with a waterfall faucet, a mirror, and a towel ring. The sink is white and has a curved, bowl-like shape. The faucet is chrome and has a waterfall design. The mirror is oval and white. The towel ring is chrome and has a dark green towel hanging from it. The sink is mounted on a white wall. A small green soap bar is on the edge of the sink. The background is a plain white wall.

* Differences in color, grain, appearance and texture are inherent in all natural woodwork, and should be expected.

Colors printed are not an accurate representation of the actual finishes and should not be used as color guide.

** Natural stone is subject to large inconsistencies and variations. Other stone options quoted upon request.

*** Athens has very prominent crystallized cross veins that look like cracks. If such feature is not desired, other stone finishes are strongly recommended. Cross veins will not be accepted as a valid reason for returns or exchanges.

SALES TERMS & CONDITIONS

PRICES

LACAVA reserves the right to change prices without notice. No price is guaranteed until it is confirmed in writing, which is valid for 60 (sixty) days from the confirmation date. The prices do not include shipping and handling charges.

CARE INSTRUCTIONS

To preserve the appearance and durability of the product, never use abrasive sponges, hydrochloric or acetic acids, ammonia or metal silicates. Appropriate cleaning agent according to the material should be used. Faucetry and other metal elements, should be wiped with a soft cloth; mild soap and water solution can be used for hard to clean spots.

UNIQUENESS

Many products are made to order and made of natural stone, woods, or metals. Because of the natural variations, and/or handmade nature of the products, slight differences are expected and are not deemed manufacturing defects. A 30% ORDER CANCELLATION FEE MAY APPLY ON ITEMS MADE TO ORDER, INCLUDING FURNITURE, CONSOLES AND OTHER ITEMS, AS YOU WILL BE SPECIFICALLY NOTIFIED IN THE PURCHASER ORDER CONFIRMATION.

TECHNICAL SPECIFICATIONS

Drawings provided herein are meant to give the user an idea of the product and are not made to scale. The sizes in inches are rounded up to the nearest 1/16. For further information, refer to the installation instructions included with the shipment.

PRODUCT DESIGN AND DEVELOPMENT

LACAVA reserves the right to add custom designs developed for our clients to our standard offering available to the public, unless agreed otherwise in writing and specifically signed by both parties.

WARRANTY

LACAVA provides a Limited Lifetime Warranty on its faucetry. This warrants any faucet, installed in a residential application, to be free of defects in material and workmanship for as long as the original consumer owns his or her home. Any product installed in a commercial application is covered under warranty for one year. LACAVA warrants all other products to be free from any defects in materials or workmanship, during normal residential or commercial use including all hinges, drawer slides, finishes, and general workmanship of the item for a period of one year. LACAVA warranties do not cover normal wear and tear, damages due to negligence, faulty installation, improper alterations and repairs, improper cleaning and care, or damages due to uses of the product other than its intended and normal use. If a defect is found under normal use, while under warranty, LACAVA will repair or replace the product (whichever cost is smaller to LACAVA) at its own expense (excluding installation charges). Under no circumstances is LACAVA responsible for installation/service fees or any dollar amount beyond the cost of the item. In addition, all LACAVA products are to be installed by experienced professionals properly licensed and bonded; otherwise, any LACAVA warranty and liability is to be considered waived. All warranties are non-transferable and proof of purchase is required for any warranty claim.

In accordance with the laws of limitation and exclusion state by state, and therefore provided the duly exceptions, LACAVA will not be held liable, in any event, for any special, indirect, incidental or consequential damages or losses (including but not limited to damages for loss of business, loss of profits, etc.) for breach of contract, tort (including negligence), product liability or otherwise, even if it has been advised of the possibility of such damages. LACAVA's liability on any claim (including negligence) will not in any case exceed the contract price paid by the original purchaser for the product claimed defective or unsuitable. It is the responsibility of the homeowner to ensure that all installed fixtures comply with all local plumbing codes.

SHIPPING POLICIES

Once the merchandise is released to and accepted by the carrier, ownership of the goods is transferred to buyer in all effects. LACAVA ships FOB Chicago and is not responsible for damages occurring in transit. After the merchandise is released and the shipping document is signed, it becomes the property of the purchaser. We constantly improve the packaging as new technologies become available, but damages in transit may still occur. Therefore, we recommend that all packages be inspected by the purchaser in the carrier's presence upon delivery. In case of damages, either visible or concealed, the purchaser is responsible for filing any damage claim against the carrier. In such regretful circumstance, we suggest utter diligence to have the carrier's agent explain the steps to submit a valid claim against the carrier, as each carrier has different claim policies. Please document everything in writing, preferably on the shipping documents and have also the carrier's agent sign along. If you wish that LACAVA assists you in the claim process, please fax or email us copies of the shipping and claim documents at your earliest convenience. In case of missing items, which could occur due to our mistake or a theft during transit, please follow same procedures as for shipping damages above, with the only difference that the claim concerns something completely missing rather than damaged. Please take notes of any visible tampering with the packaging in the presence of the carrier's agent before accepting the delivery with your signature. In case of missing items, you must also inform LACAVA and send us all related documents within 24 hours from the delivery date. We will open an internal investigation and check the inventory count to determine whether it was our error. If we verify it was our mistake, we will promptly ship the missing item(s) to the purchaser by standard ground at our cost.

RETURN POLICIES

If the product is not satisfactory for any reason, it can be returned to LACAVA up to 30 (thirty) days from the shipping date after obtaining a Return Goods Authorization (RGA). A restocking fee of 25% may apply. To obtain an RGA number, please fax or email us your request with a description of the reason for return. The merchandise must be in salable condition, in its original packaging and packed safely in accordance with the carrier's packing requirements, with the RGA number clearly marked on the outside packaging. LACAVA reserves the right not to issue any credit on merchandise returned without an approved RGA number. A restocking fee of 25% and applicable shipping charges to and from the customer may be deducted from the credit amount. Credit (excluding shipping and handling charges) will be given only for returns of intact products up to 30 days from the shipping date. If the product is not returned to LACAVA within 30 days from the shipping date, no returns will be accepted and the RGA will be voided. No further RGAs will be issued for that product. All returned merchandise is at the purchaser's risk and cost. Special order and custom-made items are not returnable. Products must be inspected prior to installation and installation of the product means its acceptance. Product, once installed, cannot be returned. Damages occurring in installation are not considered defects and are not subject to return or refund. LACAVA will replace any defective item for free only after the non-conforming product is safely returned to LACAVA's warehouse in accordance with the carrier's packing requirements, and in its original packaging, within 30 days from the shipping date. If the product is not found to be defective and is damaged in any way, there may be a charge for any replacement. In any case, LACAVA does not cover installation costs.

Thank you for considering LACAVA in your bathroom project; we are confident you will be able to enjoy our products for many years to come!

Freight Program*

\$3900 net qualifies for FREE freight in the contiguous U.S.!
Handling (H) assessed on collect shipments only.

Class	Cost S&H or H	Notes
1	\$15 or \$5	Drains and small/medium fixtures via UPS
