GOLDENSHIRE is a freestanding under-counter 30" vanity with rounded corners,tambour surface detailing available in highly coveted natural, stained and painted finishes, shown in stain-washed oak, outfitted with three drawers with full-extension soft-close glides and stained to reflect the exterior finish. The vanity is handmade in our factory in the USA by master artisans using the finest quality American woods from 100% natural, renewable forests. Designed for use with a slab countertop available in a selection of colors in marble, solid surface or quartz, and porcelain undermount sinks.

This piece explores the concept of soft geometry. Clad in a deeply saturated, stained-toned wood, the vanity features continuous vertical fluting that wraps effortlessly around its curved edges. The simple lines of the hardware create a visual separation for the multiple levels adding an architectural element to the presentation. It's a piece that feels both modern and retro.
